

Rubadue Wire Co., Inc.

"Quality Through Innovation"

February 14, 2008

To Whom It May Concern:

Rubadue Wire Co., Inc. does not use PFOS (perfluorooctane sulfate) as an intentional ingredient in the manufacture of FEP, ETFE and PFA insulated products. To the best of our knowledge, none of our raw material suppliers use this substance in the manufacture of their products.

However, please note that we do not routinely analyze our products for substances not purposely added.

The information and certifications provided herein are based on data we believe to be reliable, to the best of our knowledge. The information and certifications apply only to the materials designated herein as manufactured by Rubadue Wire Co., Inc. and do not apply to use in any process or in combination with any other material. Accordingly, Rubadue Wire Co., Inc. cannot guarantee or warrant such certification or information and assumes no liability for their use.

I trust this information meets your needs. If you have any additional questions, please feel free to contact me at sean.toland@rubadue.com.

Sincerely,

Sean M. Toland

Quality Assurance Manager
