

May 27, 2009

Registration, Evaluation, and Authorization of Chemicals (Reach) entered into force in June 2007 for the intent of protection to human health and the protection of the environment. REACH included a requirement for the pre-registration of chemical substances due by November 30th, 2008. However, Rubadue Wire Co., Inc. is a producer of “articles” and therefore must rely on suppliers for pre-registration.

REACH also addresses the continued use of 15 substances defined as “Substances with Very High Concern” (SVHC). Rubadue Wire Co., Inc. does not intentionally use any of the 15 (SVHC) and we have also confirmed with our raw material suppliers that these substances are not intentionally added.
